Mid-Progress Review — Up to 8 Sections

1. **Project Title & Team Details**
    - Project title
    - Team members
    - Guide/faculty
    - Course/department details
2. **Introduction & Background**
    - Brief project background
    - Context of the problem
    - Why the project is relevant to Operating Systems
3. **Problem Statement**
    - Problem being addressed
    - Existing issue or limitation
    - Scope of the project
4. **Objectives**
    - Main objective
    - Specific objectives
    - Expected outcome
5. **Methodology / System Design**
    - Proposed approach
    - System architecture/design
    - Technologies, tools, or OS concepts used
    - Major modules/components
6. **Work Completed / Current Progress**
    - Activities completed so far
    - Modules implemented
    - Development/testing progress
    - Current project status
7. **Last Contributions / Recent Progress**
    - Most recent work completed
    - New functionality or improvements added
    - Contributions made since the previous review
    - Current achievements/results
8. **Remaining Work & Future Plan**
    - Pending tasks
    - Testing/validation still required
    - Expected final outcome
    - Timeline or plan for completion
